

"STUDIES ON SCHISTOSOMIASIS"

A CORRECTION

The first sentence of the article on Schistosomiasis, Vol. III, page 223, of this REVIEW should read: "To Dr. González Martínez is due the credit for first establishing the presence of schistosomiasis in Porto Rico", instead of "To the Anemia Commission, etc."

The undersigned greatly regrets having overlooked the original paper of Dr. González Martínez on this subject under the title, "La Bilharziasis en Puerto Rico", read before the Medical Association of Porto Rico April 3, 1904, and published by the author as a separate pamphlet.

W. A. HOFFMAN.
